

# WORKERS ENTITLED TO MEDICAL CARE<sup>1</sup>

BY JASON G. DENTON

The foundation for the WLG began with a strong focus upon helping injured workers. That same focus still continues today.

As the new head of our Workers' Compensation (WC) Department, I take pride in assisting injured workers obtain proper medical treatment and benefits according to Tennessee Law.

In light of new changes in the law, the most difficult challenge that injured workers are facing today is receiving proper medical treatment, which is something injured workers have the right to receive for their workplace injuries.

In future articles I will be writing, I will write about this and other important WC issues that can help injured workers protect their rights.
